## WORK EXPERIENCE

---

### **Accedo.tv**

December 2022 - Present

*Android Software Engineer*

Accedo is a global video solutions provider, powering some of the world's most impactful video-centric experiences. Since last December, I have worked on the 1001 app, a mobile video streaming application for Middle East-based users, in which I successfully executed a range of tasks, such as:

- Video playback optimizations with exoplayer;
- Arabic language support;
- Firebase authentication with social and custom login;
- Technical issues and bugs reported both by users and internal stakeholders, providing quality solutions and clear communication.

### **Banco Inter**

September 2021 - November 2022

*Android Software Engineer*

Banco Inter is a Brazil-based digital bank

- Development and maintenance of global account (US) features in Inter super-app;
- Integration of Inter and Inter Companies apps by product flavors/build variants.

### **Treinus**

September 2019 - October 2020

*Android Software Engineer*

Treinus is a Brazilian startup focused on connecting athletes and sport consultants

- Mobile development for the Android platform using Kotlin and Java;
- Experience with different architectures, such as mvvm, mvc and viper;
- Improvement in the CD pipeline, from building to publication of the app on PlayStore.

### **UFMG Informática Júnior**

November 2018 - April 2019

*Web Developer*

- Development of websites and systems with other collaborators using HTML, CSS, PHP and JavaScript.
